

# TRUST SecurePIM

The safest and easiest tool for your mobile workforce.

## Protect Your Company Data on Mobile Devices

### OUR MISSION

We secure all of your company's mobile data - with a single App.

### YOUR SECURITY

Business data is encrypted and protected while all private contacts, pictures, apps, etc. are kept separate. Always GDPR compliant.

### YOUR CHOICE

Allow employees to utilize their own devices for both professional and private purposes without risk of company data loss.

## MAXIMUM SECURITY FOR YOUR CORPORATE DATA

State-of-the-art encryption standards protect your company data while ensuring strict adherence to GDPR. Guaranteed protection from penalties and fines.

## STRONG USER ACCEPTANCE

Invest in a solution that is usable for the employee and easy for the admin. SecurePIM's intuitive user interface and easy installation enables employees to work immediately from their mobile device while minimizing training and support efforts.

## EASY TO INTEGRATE – EFFORTLESS TO USE

SecurePIM can easily integrate into the current corporate infrastructure – with or without Mobile Device Management (MDM), enabling complete control of company data regardless of who owns the device OR if the device is lost or stolen.

## Money-back guarantee

If you are issued a GDPR-related fine, you will get your money back!\*
